

JASON PAYNE & THE BLACK LEATHER RIDERS

British riff-driven melodic metal hailing from London, UK

With a history boasting over half a million streams, 50 live shows and a modest lifetime of musical creation with past acts, London based metal artist Jason Payne took 2020 to embark on a new journey; '**Jason Payne & The Black Leather Riders**'. A culmination and reincarnation of his strongest creations, featuring debut single **Waking The Damned**, plus **The Dark**, **The Purge**, and numerous other high energy tracks making up the arsenal that is **The Abyss**, the debut EP out now. Think Slash, Alter Bridge, Metallica, and many other legendary influences.

2017 to 2020 saw Jason front the British rock outfit Louzada on guitar and vocals, achieving over 300,000 streams across Spotify & YouTube and amassing thousands of worldwide fans, all through a modest discography of just one single, and one EP. The arrival of the worldwide pandemic in 2020 brought about the amicable hiatus of Louzada, resulting in time to put in the focus and determination needed to launch his most ambitious project yet.

Think big riffs, impactful grit-laden vocals, gripping high production music videos, and an energy just screaming to be invited to the live stage, and that's exactly what Jason's debut singles bring...

Released December 2020, the debut single **Waking The Damned** [https://youtu.be/f_hDsqhQHTQ] became a viral hit amongst rock & metal lovers alike, garnering over 300,000 views / streams to date, multiple worldwide press features, a whole army of new and engaged followers, and this is just the start...

Now in summer 2021; the second and third harder hitting singles **The Dark** [<https://youtu.be/TIENdwGGGgw>] and **The Purge** [https://youtu.be/tw_KxmTr8xg] have been unleashed, in support of the debut EP **The Abyss** out NOW, taking the metal madness to a whole new level.
